ABC's Love Chef Launches Web Site for Children

November 25, 2002 – The Love Chef's web site just got better! Francis Anthony, better known as The Love Chef on ABC's *Live with Regis and Kelly*, has just expanded his web site to include a kids' section!

The Love Chef, who began cooking with family members at age 6, knows all about educating children on the joy and safety precautions of the kitchen. Having taught hundreds of children at his Cooking with Love International Cooking School in New York City years ago, he knows that children want to participate in meal preparation activities.

"Children realize that they can create foods for their own enjoyment or to share with family and friends, and they take a lot of pride in their work," said The Love Chef.

"I am always getting comments from children who want to learn more about cooking and take an active role in the kitchen, which many times is the heart of the household. Cooking skills teach children so much about planning, sharing and safety. It's a great educational tool, and it's fun!"

Web site features include a section on cooking-related careers, kitchen safety, a matching game with kitchen terms, a glossary of commonly-used words, and (of course) recipes! In addition, children are invited to submit photos of themselves and their culinary creations for posting on the web site.

Children and adults alike are invited to visit the site at <http://www.thelovechef.com>. Log on and see what's cookin'!
